

Dr. Ambedkar College of Arts, Commerce & Science, Chandrapur Perspective Plan 2019 – 2024

The higher education is developing very fast in basic as well as professional areas. In spite of this, education is a matter of concern even today. In order to educate students, our Institute envisages the academic programmes by considering needs of the society, industry and the service sector. While preparing the perspective plan thought is given to accommodate students in existing programmes and new academic programmes. Human resource of the Institute is remarkably helping the students in achieving the mission and objectives of our institute. Therefore, the Staff training to improve teaching learning process is also an area of concern. Research, extension activities, extracurricular programmes for students need to be revived.

In 1970, Dr. Babasaheb Ambedkar Memorial Society, Chandrapur initiated its activity as education. As a result Dr. Ambedkar College of Arts, Commerce & Science was established which was affiliated initially to RTM, Nagpur University, Nagpur and from 2012 the affiliation was switched over to Gondwana University, Gadchiroli. Currently, the College has UG Departments in Arts, Commerce and Science faculties. The college also runs 11 PG courses in Arts, Commerce & Science faculties and IHLR & SS (Botany, Electronics, Chemistry, Marathi and History). The college has dedicated and qualified faculty. There is a good support from the Management. The college has grown with adequate infrastructural facilities and academic programmes, yet there is no place for complacency. Development is a continuous process which has to be reviewed periodically, reprogrammed with future perspectives. Therefore, there is always a need to develop, initiate and to match current and future Academic Programmes with an eye on the future. The perspective plan has been prepared keeping in mind the growth, requirements and employability of the learners.

The perspective plan for the year 2019-2024 is prepared to ensure that college activities are aligned with the vision of the college as given below.

The institution has a long term planning for the growth and development that is reflected in its Perspective Plan. The Internal Quality Assurance Cell (IQAC) of the college takes initiatives in the preparation of the perspective plan. The Institutional head and IQAC consider the quality indicators of certain criteria determined by NAAC. Also, the framework of plan is inclined towards the development of the institution that refers to the quality sustenance and quality enrichment. It intends to cover social, economic and spatial development. The following table focuses on the Institutional perspective plan for the next five years.

Session 2019-20

1. To start new academic programs like B. Sc. in Environment Science, B. Sc. in Biochemistry.
